## **“ONLY DAUGHTERS SCHEME 2024-25”**

In the loving memory of our beloved father and founder-chairman of this institution Shri Jagdish Lal Bhatia, “Only Daughters Scheme 2020-21” in short “ODS 2020-21” was launched by the school management on 29/10/2019, four years ago from session 01/04/2020 completely based on behalf of our school and the motive behind the scheme is to promote the girls (for proving them education) of those parents who have only the daughters as there may be one, two or more than two. Our school has started this scheme first time with effect from 1<sup>st</sup> April 2020 and now we are going to implement this scheme namely “ODS-2023-24” with some changes. It is clear that the parents who had admitted their daughters before 31<sup>st</sup> August 2022 will not be able to avail the benefits under this scheme namely “Only Daughters Scheme 2023-24” in short “ODS 2023-24”. Parents should keep one point in their mind that this scheme is only the self financed and self feeding scheme by the school management and it is not granted by any of the govt. agencies, therefore, school management has a right to withdraw the benefits availed by the parents if at any stage of the study it is found that parents have provided the wrong or false information in the affidavit submitted with the school. So, the parents are advised to give the true and correct information in their affidavit, If the parents want to avail the benefits under the scheme “Only Daughters Scheme 2023-24” they have to submit an affidavit given at the last of the information.

1. “ODS 2023-24” is for those parents only **who do not have a son but have daughters only** in other words they have two or more than two daughters.
2. This scheme is only for those parents who are having their annual income **less than Rs.250000/- (rupees two lakh fifty thousand)** per annum.

3. This scheme is not for those parents who are having a daughter admitted in our school but **whenever they admit their second daughter then they will come in the position to avail the benefits of this scheme.**
4. If the parents have **two daughters** only then the parents have to pay full charges accordingly for the elder one at the time of admission and full transport charges for twelve months and **he has to pay half of all the charges and the half transport charges for twelve months for their younger daughter. Half tuition fee will be charged for the younger daughter for the twelve months of the session. All the books every year and a set of uniform (summer & winter) in every two years will be provided at the discount of 50% to all the girls.**
5. If the parents have **three daughters only but not a son** then they will have to pay **full admission charges and transport charges for twelve months accordingly for the elder daughter at the time of admission and they will have to pay half of all the charges including transport charges for the second girl and they will not pay any fee for the third girl and the girl will be treated under the scheme "GEAS 2023-24" and she will pay only transport charges for twelve months . A set of books and a set of uniform (summer & winter) in every two years will be provided at the 50% of the cost of the material to the two elder girls.**
6. If the parents have **four daughters only but not a son** then they will have to pay **full admission charges and transport charges for twelve months accordingly for the elder daughter at the time of admission and they will have to pay half of all the charges including transport charges for the second girl and they will not pay any fee for the third and fourth girls and the girls will be treated under the scheme "GEAS 2023-24" and she will pay only transport charges for twelve months. A set of books and writing material every year and a set of uniform (summer & winter) in every two years will be**

**provided free of cost to the girls under “GEAS 2023-24” no concession of any kind in books and uniform to the two elder girls.**

7. If any of the daughters leaves the school the **scheme will continue to exist according to the number of daughters** studying in the school.
8. Each and every couple of our society wants to have a combination of a son and a daughter but it is not in our hands so beyond the “ODS 2023-24” if by the blessings of God parents have a son then they need not only to inform the good news to the school but they shouldn't be worried also about their son's education. **Our school management has decided to give complete half concession in all the charges including transport charges to the sons of these kinds of parents whose daughters are already studying under “Only Daughters Scheme 2023-24”.**
